

Annual Meeting

Tuesday, January 8, 2013

Robert H. Cohn Auditorium
Arthur C. Nielsen, Jr. Campus
161 Northfield Road, Northfield, IL 60093

Vinayak P. Dravid, Ph.D.

Founding Director of
Northwestern University's
Atomic Nanoscale Characterization
Experimental Center (NUANCE)

Speaking on:

**“Emerging Nanotechnology for
Biomedicine and Quality of Life:
Will 75 Become the New 35?”**

10 a.m. Business Meeting

10:30 a.m. Dr. Dravid addresses how the emerging field of nanotechnology will impact science, medicine and the process of aging.

A reception will follow the lecture.

For additional information, call 847.784.6030.

This event is free and open to the public.
